

**AGENCY TELECOMMUNICATIONS REPRESENTATIVE
BULLETIN 2007-14
July 16, 2007**

SUBJECT: Long Distance Conversion from CALNET I to CALNET 2

AT&T's conversion of the Department of Technology Services (DTS) consolidated Centrex was completed on Saturday, July 14, 2007, with one exception – Verizon consolidated territory in San Bernardino and Long Beach. Once those areas are scheduled, DTS will send out an ATR bulletin.

With the conversion to CALNET 2, it will no longer be necessary to dial 8+ for CALNET access. Long distance calls will require customers to dial "9" and "1" plus the ten (10) digit number. Calls are automatically routed to ensure the best possible rate. If, after the conversion, users dial "8", they will hear the following message: "this call cannot be completed". Upon hearing that message, they should redial their call using the "9" and "1".

If you have any questions regarding this ATR Bulletin, please contact a DTS Representative at (916) 657-9150, or send an e-mail to STNDhelpme@dts.ca.gov.

A handwritten signature in black ink that reads 'Wes Nitta'.

WES NITTA, Acting Deputy Director
Statewide Telecommunications and Network Division
