

STATE TELECOMMUNICATIONS MANAGEMENT MANUAL

State of California Department of Technology		Statewide Telecommunications and Network Division
Category: Cable, Fiber, and Wire Management	Chapter Title: Facilities Management	Chapter Number: 0600.0

Issued: September 30, 1996

Revised: July 1, 2013

PURPOSE

The purpose of this section is to define the standards and practices applicable to telecommunications cabling and spaces in and connecting to state buildings.

POLICY

Department of Technology, Statewide Telecommunications and Network Division (Technology-STND) is responsible for developing uniform cable and wire distribution standards in state buildings, developing fault-avoidance practices, controlling access to Technology operated telecommunications equipment rooms, and acquiring telecommunications sites.

Agencies requiring further information on standards and practices applicable to telecommunications cabling and spaces connecting state buildings should contact their Agency Telecommunications Representative (ATR) or STND directly at (916) 657-9150.
